Technical Skills

Languages: JavaScript (ES6+), TypeScript, Java, Kotlin.
Frontend Technologies: React Native, Expo, React JS, Android, React Navigation, Redux, Zustand, React Query, Tailwind CSS.
Backend: REST APIs, GraphQL, Firebase, Node.js.
CI/CD and Tools: Git, Jest, React Native Testing Library, EAS, Firebase App Distribution, GitHub Action for pipeline

Experience

MYPCOT INFOTECH PVT LTD **Jul 2023 - Present**
Software Developer *Mumbai, Maharashtra*

- Designed and developed **cross-platform mobile applications** using React Native and TypeScript for healthcare, finance, fitness, e-commerce, CLMS and restaurant domains.
- Responsible to development and manage the **iOS build, testing**, ensuring stability across devices.
- Profiling app using Flipper and now React Native Dev tool to improve rendering screen time and optimization of code.
- Improved memory usage by implementing proper cleanup of listeners, subscriptions, and component lifecycle resources.
- Used React Strategies to avoid re-rendering like pure components (useCallback, memo, useMemo).
- Built **scalable UI architectures** with code splitting, reusable components, improving development speed and maintainability.
- Integrated **JSON-based REST APIs**, handling authentication, data synchronization, and error states.
- Worked on native module integrations and optimized app performance through strategic API usage.
- Collaborated with backend, product, and UI/UX teams to define requirements and deliver optimized solutions.
- Enhanced user experience by resolving performance bottlenecks, improving API calls, and implementing caching.
- Authored reusable, modular components and contributed to peer code reviews and unit testing.

Projects

Medical USA Platform (Doctor & Patient Apps)

React Native | TypeScript | Redux

- Developed **two separate React Native applications** for doctors and patients.
- Consumed backend-provided APIs for appointments, patient records, and user workflows.
- Implemented responsive UI designs and optimized navigation flows.
- Participated in **UAT deployment and testing cycles**.
- Improved app performance by optimizing re-renders, memory consumption, and API caching.
- Implemented **Stallion Service** for OTA update in **UAT deployment and testing cycles**

Maak: Multi-Service E-Commerce Application

React Native | TypeScript | Redux

- Consumed backend-provided APIs for appointments, bookings, payments, merchant payments and bookings records, and user workflows.
- Implemented responsive UI designs and optimized navigation flows.
- Participated in **UAT deployment and testing cycles**.
- Implemented **Fawry** Payment gateway for wallet transaction.

Tqaset: Multi-Service E-Commerce Application (Customer & Merchant Apps) (Full Revamp of Maak)

React Native | TypeScript | Redux

- Developed **two separate React Native applications** for Customer and Merchant.
- Consumed backend-provided APIs for bookings, payment records, services and user workflows etc.
- Implemented responsive UI designs and optimized navigation flow, user authentication flow.
- Participated in **UAT deployment and testing cycles**.
- Implemented **Stallion Service** for OTA update in **UAT deployment and testing cycles**.

Trolley: Multi-Category Grocery & Daily Essentials App

React Native | TypeScript | Redux

- Built a **multi-service e-commerce mobile application** supporting groceries, vegetables, dairy, beverages, and non-vegetarian products.
- Designed end-to-end **user purchase flows** including product listing, category browsing, cart management, and checkout-ready state handling
- Implemented **Redux-based cart system** to manage item quantity, pricing, and state consistency across screens.
- Developed **responsive, reusable UI components** and optimized navigation flows for smooth category switching.
- Integrated API-driven product data and handled loading, error, and empty states.
- Participated in **UAT deployment, testing cycles**, and production bug fixes.

Education

N. B. Navale Sinhgad College of Engineering, Solapur **2018 – 2022**

Bachelor of Technology in Electric Engineering

CGPA : 9 / 10

Netaji Jr Science College, Mohol **2016 – 2018**

HSC | Science PCM (Maharashtra Board)

M. A. Rajanji Patil Vidyalaya, Malikpeth **2015 – 2016**

SSC (Maharashtra Board)

CERTIFICATES/ AWARD

- Employee of the Month | Mypcot Infotech Pvt Ltd
